- o [REDACTED] of the C<sup>3</sup>I Staff briefed on a proposed approach to the Requirements and Military Operations Concepts Study (Attachment A) recommended in the Reconnaissance System Review final report. This presentation elicited considerable comments from the members of the Working Group, with the JCS representative questioning the "systems analysis" approach that is being applied to the entire NWMP-2 effort. I questioned a statement by the Chairman, Ms. Tish Vajta, that the requirements developed under Task 1 represented all of the roles of the President, noting the lack of Department of State participation, for example. Ms. Vajta stated that the requirements were based on the RSR requirements, which she assumed had covered all Presidential needs. [REDACTED]

3. The DIA member, [REDACTED] announced that a "threat paper" was being developed by [REDACTED] DIA, and would be presented in the near future. A preliminary draft will be forwarded to the IC Staff for coordination with CIA. [REDACTED] noted that the paper would draw heavily

from the threat statement developed by the RSR panel. This drew questions from members of the Group about the balance between the threat to ground, sea and air assets, as well as to space collectors. It was agreed to wait for the paper before commenting further.

4. I was asked by the Chairman to explore the question of survivability of production facilities, and the method of survivability. I agreed to discuss this subject within the IC Staff and to report back to the Working Group.

5. Sample charts (Attachment B), depicting imagery collection requirements under Task 1, Requirements, were circulated for review and comment. A copy has been forwarded to the COMIREX staff for their review.

APPROACH

SECRET

- 0 REVIEW ALL EXISTING DOCUMENTS THAT ADDRESS MILITARY OPS CONCEPTS.
- 0 USING EXISTING DATA TO THE MAXIMUM EXTENT POSSIBLE, DEVELOP MILITARY CONCEPT OF OPERATIONS THAT SPANS ALL LEVELS OF CONFLICT AND EMPHASIZES THOSE ASPECTS THAT IMPACT ON INTELLIGENCE. PLACE SPECIAL EMPHASIS ON NCA DECISION MAKING PROCESS THAT DEAL WITH SELECTION OF NUCLEAR WEAPONS EMPLOYMENT OPTIONS.
- 0 EVALUATE THE INTELLIGENCE REQUIREMENTS DEVELOPED IN NWMP-II TASK 1 IN TERMS OF HOW WELL THEY SUPPORT THE OPERATIONS CONCEPT. IDENTIFY NEW REQUIREMENTS AND/OR MODIFICATIONS TO EXISTING REQUIREMENTS.
